Dear Hiring Manager,

I am excited to apply for a role that aligns with my expertise in IT development and project management. With over 17 years of experience in Information Technology, I have successfully led development teams, optimized processes, and contributed to innovative digital solutions across Human Resources, Publishing, Insurtech, Fintech, and Automotive industries.

At Audi Mexico, I have transformed business needs into technical solutions, leading requirement gathering and ensuring seamless implementation of development phases. My ability to integrate modern methodologies has strengthened teams and streamlined workflows, improving operational efficiency. Previously, at Smart Plus, I managed front-end development, creating interactive web interfaces and enhancing user experiences. My role at MyCaribu further deepened my UX/UI expertise, where I designed mobile applications with a strong usability and accessibility focus.

Beyond technical skills, I thrive in leadership, proactive problem-solving, and cross-functional collaboration. My experience working with Scrum methodologies has enabled me to deliver scalable and efficient solutions while maintaining agility in dynamic environments.

I am eager to bring my skills and expertise to your team and contribute to meaningful projects. I welcome the opportunity to discuss how my background aligns with your organization's goals. Thank you for your time and consideration.

Best regards,

Gerardo Hernandez Flores
